

A MasterCraft speedboat is shown from the side, moving across a body of water. A person is surfing on the wake of the boat. The background is a dense forest of green trees. The water is dark with white foam from the boat's wake. The overall scene is dynamic and recreational.

MasterCraft

2021 LINEUP RESOURCE GUIDE

A photograph of a family of four (a man, a woman, and two children) and a dog standing on a wooden dock next to a white and orange MasterCraft speedboat. The boat is docked under a large wooden pavilion with a shingled roof. In the background, there are lush green trees. The scene is set during the day, with reflections visible on the water.

WELCOME TO THE WATER.

Where we make personal bests possible. Where epic sessions come standard. Where awesome days with perfect waves are always waiting. Since building our first ski boat more than 50 years ago, we've been delivering the most fun on the water to boaters across the world. And with our biggest and best lineup yet, this year is no different. Get ready for legendary performance, the most adjustable waves and the quality you expect from MasterCraft. If you're ready to take your season to the next level, you've come to the right place.

WELCOME TO THE WATER. WELCOME TO MASTERCRAFT.

A man in a blue life vest and dark shorts is surfing the wake of a boat. He is crouched on a white surfboard with blue stripes. The boat's wake is a large, white, foamy wave. In the foreground, the back of a person's head and their raised hand are visible, along with the red seating of the boat. The text "THE ULTIMATE ON-WATER EXPERIENCE." is overlaid in large, white, bold, sans-serif capital letters on the left side of the image.

THE ULTIMATE ON-WATER EXPERIENCE.

HERE ARE FIVE WAYS MASTERCRAFT DELIVERS:

- 1. YOUR WAVE, YOUR WAY**
- 2. THE MOST FUN FOR EVERYONE**
- 3. MORE COMFORT, MORE JOY**
- 4. EVERY DETAIL DELIVERS**
- 5. NO DOWN TIME, NO DOUBTS**

YOUR WAVE, YOUR WAY.

CREATE EPIC WAVES AND WAKES FOR EVERYONE WITH
THE AWARD-WINNING GEN2 SURF SYSTEM.

Are the waves and wakes really that much better behind a MasterCraft? Without a doubt. With our award-winning GEN2 Surf System, we've created the best and most adjustable surf waves in the industry. With simple one-button control of every variable (ballast, speed and shaping device angles), it's never been easier for drivers to dial in waves. From little to big, first-timers to pros and riding every type of board in between, all riders can enjoy perfectly custom waves. But that adjustability isn't just for surfing. The same easy-to-operate software also creates amazing wakeboarding wakes and exceptionally flat ski wakes.

THE MOST MODELS. THE MOST FUN FOR EVERYONE.

AT MASTERCRAFT, WE BELIEVE EVERYONE SHOULD HAVE THE ELITE ON-WATER EXPERIENCE. WITH 13 MODELS SPANNING ACROSS OUR EXTENSIVE LINEUP, WE HAVE THE PERFECT FIT FOR EVERY FAMILY AND TYPE OF RIDER. FROM OUR ALL-THRILLS NXT TO THE ICONIC XSTAR, EVERY MASTERCRAFT IS A REFLECTION OF OUR LEGACY, PRECISION, PROGRESSION AND POWER.

NXT

If you're ready to enjoy all-day fun, must-have features and trusted MasterCraft quality, the NXT is the answer.

XT

The XT offers the power to dial in your MasterCraft with the luxury and performance features that matter most to you. Available in traditional or pickle fork bow.

X

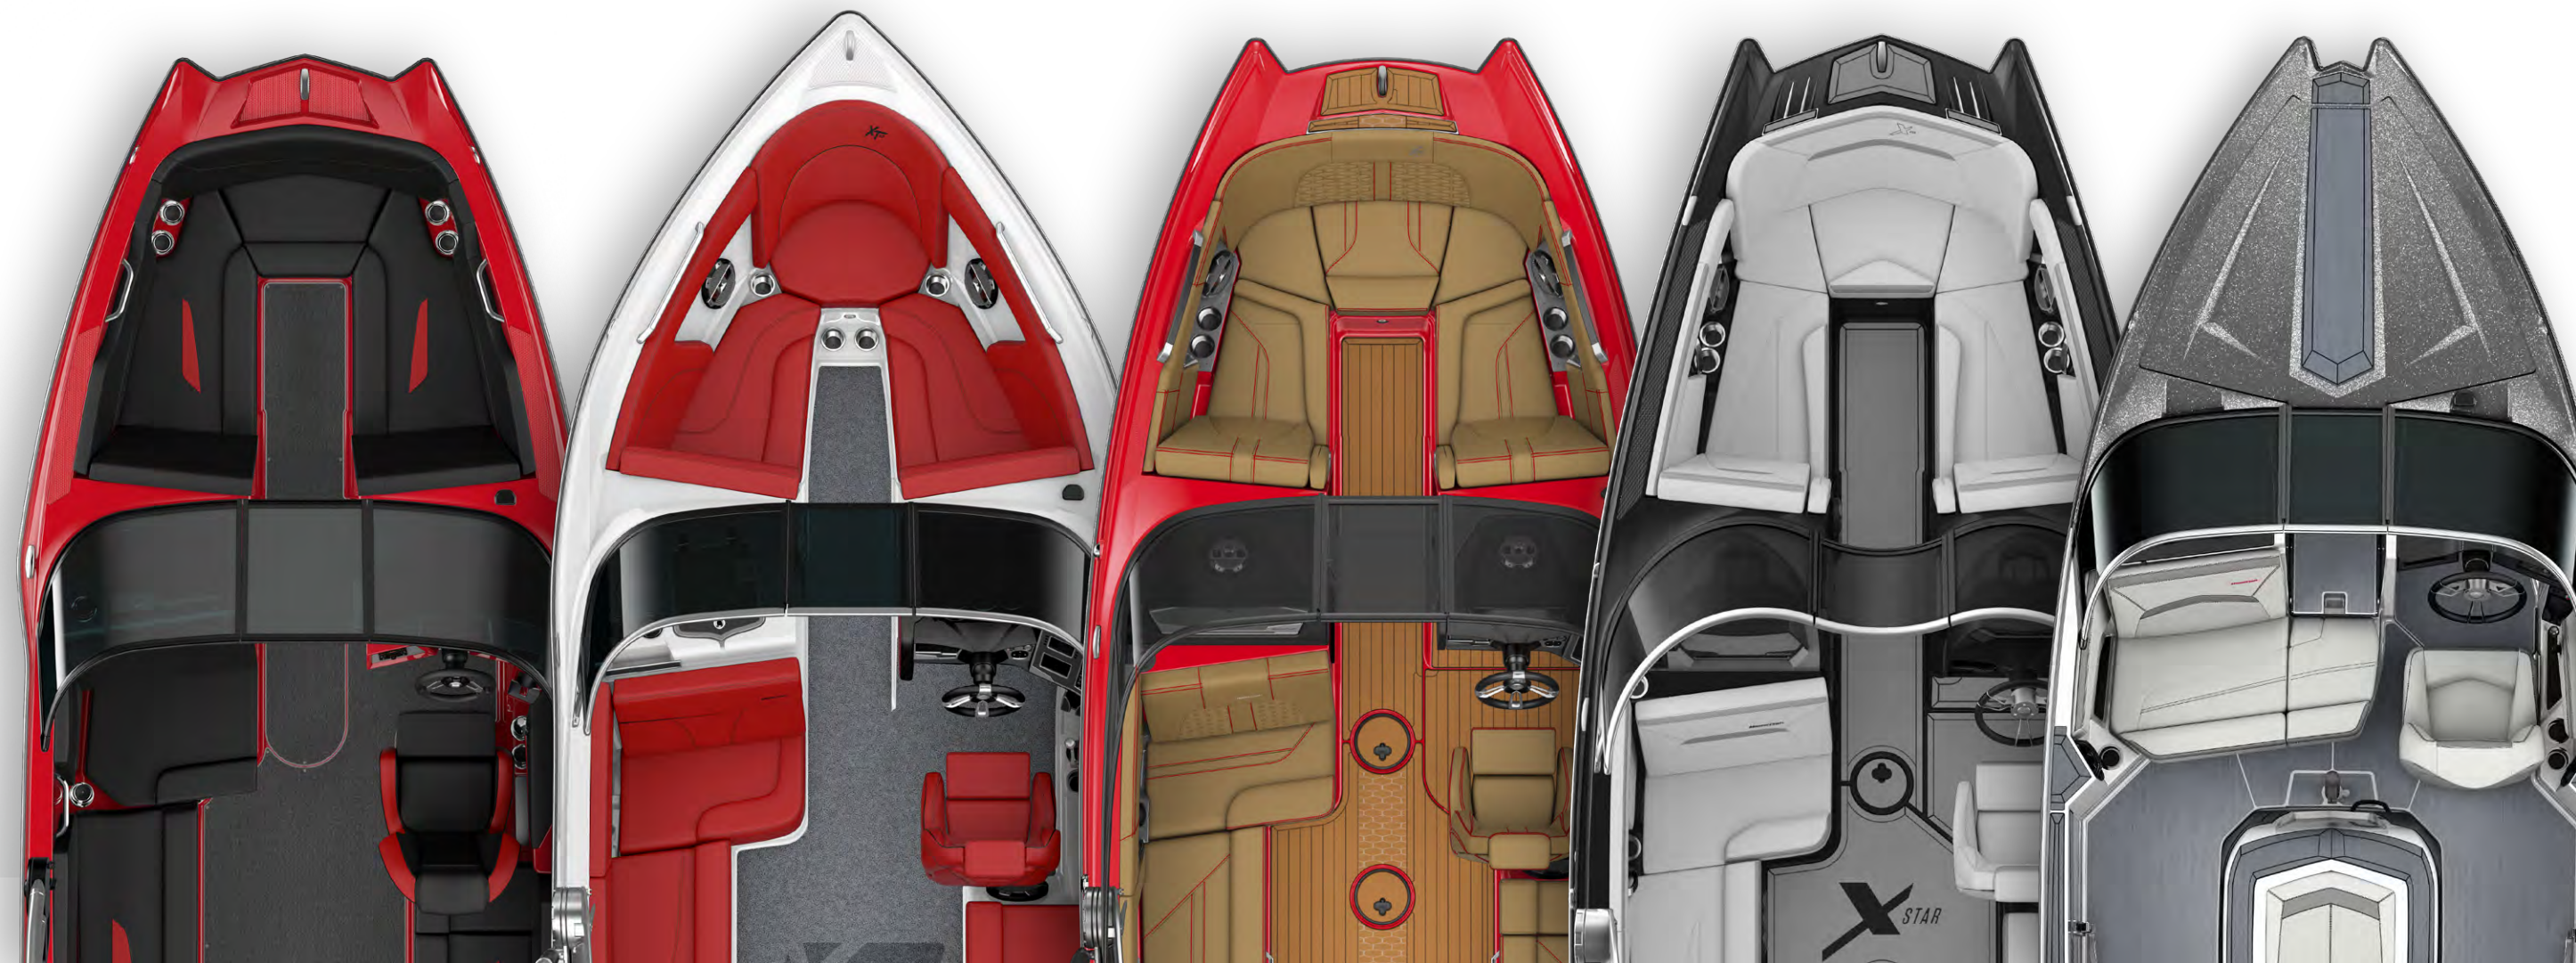

With refined onboard features and head-turning performance, our X models are designed to deliver epic waves and wakes with sleek sophistication.

XSTAR

Ready to step up to the next level with the best features onboard? The iconic XStar is waiting.

PROSTAR

Central to our heritage, the ProStar delivers the precision, control and industry's best wakes to get the most from every set.

**MORE
COMFORT,
MORE JOY.**

Our superior build construction, hull design and seating ergonomics give MasterCraft boats the smoothest ride, so you feel safe, confident and comfortable on any water. Inside the boat, our layouts take pampering to the next level with seats that are the most plush (triple density foam) and most spacious (ergonomically amazing). Our interiors are also the most adjustable, with innovations like flip-up transom lounge seats, convertible center rear seat and cockpit flip seats — so everyone in your crew has the best seat in the house to catch the action. When it comes to chilling out, we thought of everything — from lit cupholders and seat heaters, to the quick-deploy bimini and full-length sunshades. It all adds up to more comfort, more joy and more fun for everyone onboard.

EVERY DETAIL DELIVERS.

MASTERCRAFT BOATS ARE BUILT WITH
BEST-IN-CLASS COMPONENTS, SO YOU GET
THE QUALITY YOU EXPECT AND DESERVE.

Making a decision on value is different than looking at price alone. Across models, components, length, layout, features and performance, quality is everything. So we don't compromise our construction or your lifestyle by cutting corners. Our boats include superior standard equipment and our component partners are the most awarded and best in the industry. No other brand goes through the same intensive design collaborations with its partners. Your time on the water is worth it.

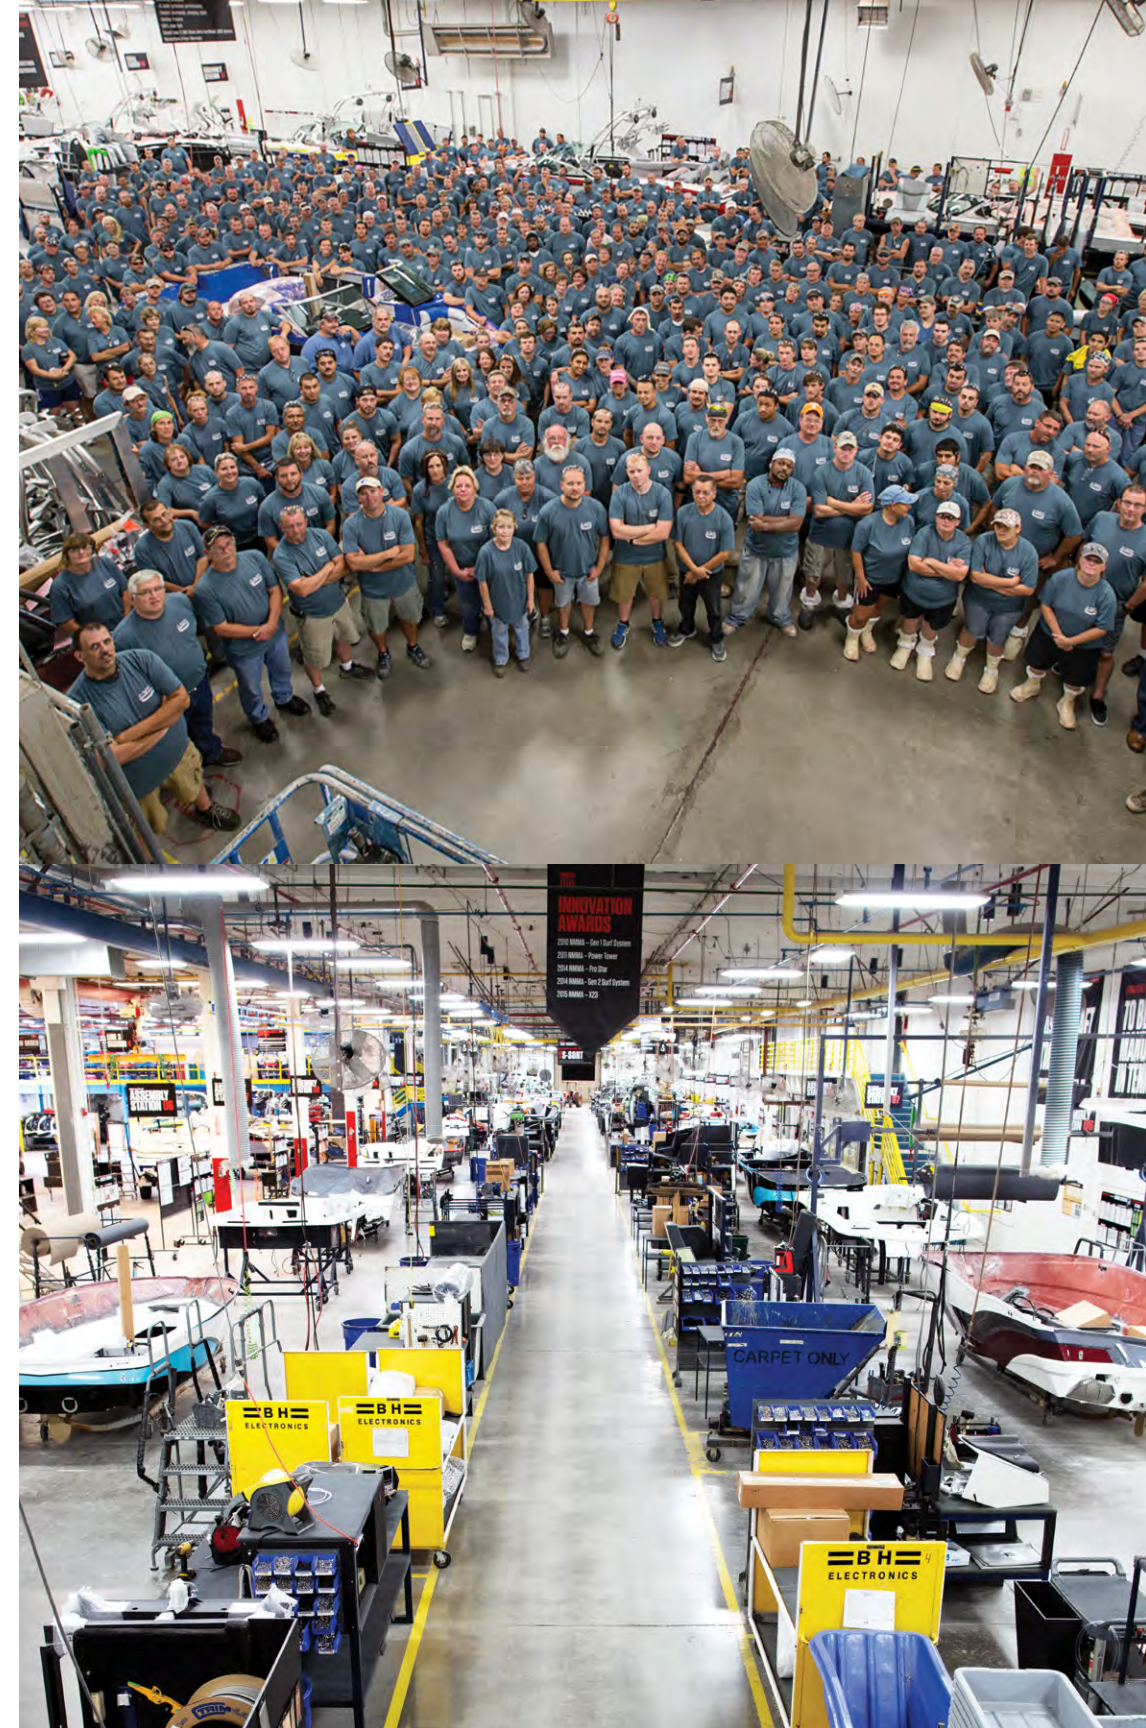

NO DOWNTIME, NO DOUBTS.

THE BEST BUILD QUALITY AND THE BEST WARRANTY MAKE
MASTERCRAFT THE MOST RELIABLE BRAND ON THE WATER.

WHAT DO YOU KNOW ABOUT WHERE YOUR BOAT WAS BUILT?

Here's why we think it's important: because your season is priceless. And who wants to deal with unnecessary downtime or outsourced service contracts? MasterCraft is the only boat manufacturer in the marine industry to achieve all three prestigious global ISO certifications in quality, environmental and safety. We're also the only boat manufacturer to ever be awarded the Best Plant in North America by the leading trade authority, IndustryWeek. Peek further behind the curtain to find us testing your boat — MasterCraft performs over 1400 tests PER BOAT before each is sold. We also perform 24 hours of validation in offshore ocean waves for every new model. But we won't bore you with the details. The bottom line is simple: we have the most comprehensive, easiest-to-understand 5-year warranty and the only 7-year/1000-hour engine warranty.

THE BEST FEATURES FOR YOUR BEST SEASON.

EXPLORE OUR PREMIUM FEATURES AND OFFERINGS:

1. THE GEN2 SURF SYSTEM
2. DASH AND AUDIO PACKAGES
3. OUR TOWERS
4. INDUSTRY-LEADING INNOVATIONS
5. ILMOR ENGINES

WHAT MAKES THE GEN2 SURF SYSTEM SO EPIC?

In 2009, MasterCraft debuted the industry's first surf system. Since then, our team of dedicated naval architects continue to innovate and evolve our surf waves, making them longer, more versatile and more fun.

What makes it so special? Each and every model has its own unique system custom designed to maximize wave performance. Ballast placement and amount is fine-tuned for each hull. Then the shaping device location, travel and unique patented features are adjusted to pump out the world's greatest surf waves. This creates a more efficient, endlessly adjustable and all-around better wave. Roll out waves that are cleaner, longer and steeper with more push, more control and the most rideable area in the industry.

Drivers love it because it's so simple: one-button control of all the variables (ballast, speed and shaping device angles). Surfers love it because each wave is custom tuned for them, so everybody onboard — from beginner to advanced — gets waves tailored for their board type, ability and overall preference. And the GEN2 Surf System's precision allows you to consistently dial in the same unique waves every time.

KID'S WAVE

MAX PUSH WAVE

TURN ON THE AWESOME.

CRANK THE MUSIC, CRUISE AND CUSTOMIZE
WAVES AND WAKES: EVERYTHING YOU NEED IS
RIGHT AT YOUR FINGERTIPS.

With innovative features, our dash options are ready to dial in your dream day. Our fully digital control center allows anyone to get behind the wheel and begin driving like a pro. We design the software interface to be effortlessly intuitive and allow you to focus on what matters: enjoying your day. With the built-in GEN2 Surf System, it's never been easier to create the perfect wave. Explore factory presets or adjust ballast, surf tab and speed settings. Have your wave set? Tap the save settings icon and now it's only one touch away.

SINGLE SCREEN ADVANCED

The sleek 7-inch display comes with built-in factory presets for every behind the boat activity. Set up for surfing, wakeboarding or skiing in just two touches. Play your tunes your way with Bluetooth, USB, broadcast radio or weather band. With four 8.5-inch speakers, a 5-channel amplifier and a 10-inch subwoofer, you can keep things as loud as you like.

DUAL SCREEN ADVANCED

The Dual Screen Advanced package includes everything from the Single Screen Advanced package but substitutes the 7-inch display for a 10.6-inch control center and adds a fully digital 12.3-inch center display. Easily manage all your boat controls, explore Navionics GPS Charts and turn on the Advanced Audio system.

DUAL SCREEN PREMIUM

For dual screeners looking to amp up the volume, the Dual Screen Premium package has everything you need to get loud and keep the party going. The Dual Screen Premium package includes everything from the Dual Screen Advanced package as well as two dash mounted 7-inch speakers and an additional 10-inch subwoofer. Enjoy the action behind the boat with GoPro tower and transom surf mounts and a rear-facing tower-mounted camera that feeds directly into the 12.3-inch center display.

DUAL SCREEN PREMIUM PLUS

There's no such thing as too much music. The Dual Screen Premium Plus package includes everything from the Dual Screen Premium package as well as two more 8.5-inch speakers in the cockpit, four 8.5-inch tower speakers and an additional 8-channel amplifier for concert-worthy sound.

WE WERE BUILT FOR THIS.

MASTERCRAFT TOWERS ARE THE INDUSTRY'S EASIEST TOWERS TO OPERATE. DESIGNED WITH SEAMLESS BIMINI FUNCTIONALITY, YOU'RE SET TO ENJOY CLUTCH PERFORMANCE SEASON AFTER SEASON.

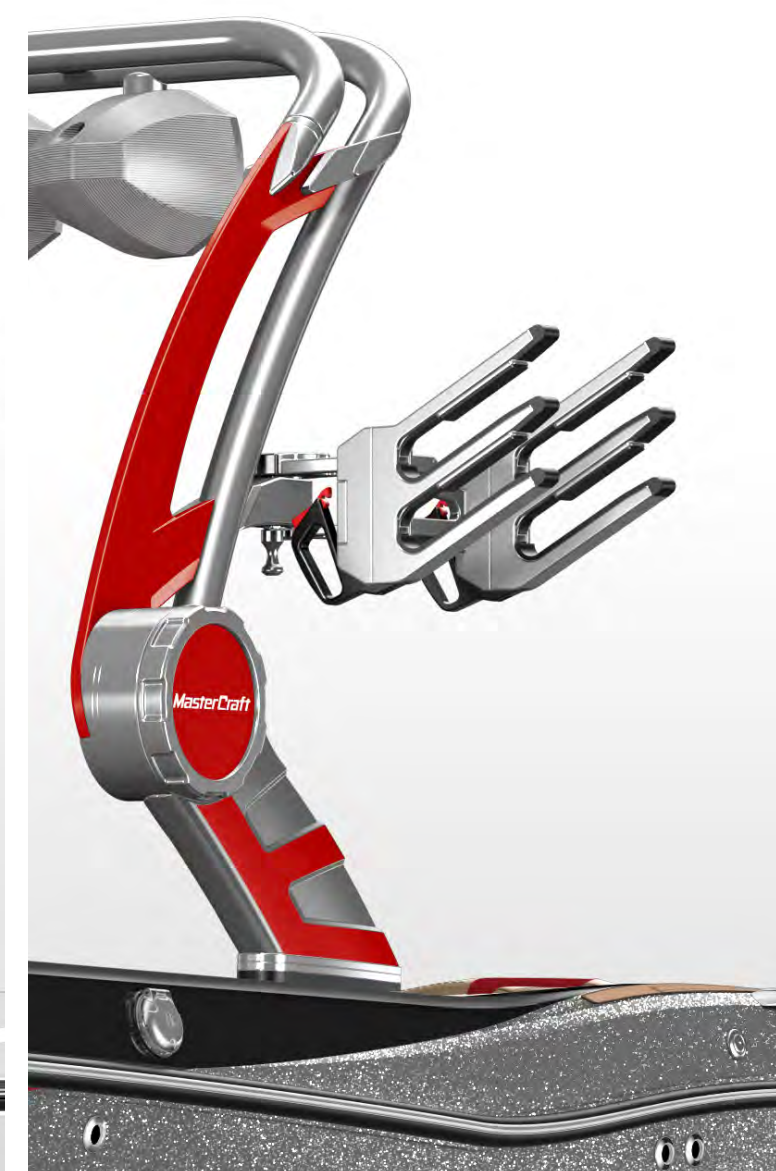

ZFT2

Our base tower is built with sturdy billet aluminum and includes a unique full tubular upper section. A threaded fastener lets you drop the tower to the stern for easy storage. Comes equipped with bungee board racks and available speaker upgrades.

ZFT4

Designed with seasoned boaters in mind, the ZFT4 can easily be secured up or down thanks to a quick-release handle. Comes equipped with optional speaker cans, port/starboard surf tows and clamping board racks. Plus, customize your ZFT4 with available speaker upgrades, RGB lighting and rear-facing camera.

ZFT7

With its hydraulic assist, the ZFT7 is one smooth operator. Simply press the rocker switch at the helm to raise or lower. Comes equipped with optional speaker cans, port/starboard surf tows and clamping board racks. Enjoy available premium speaker upgrades, RGB lighting and auxiliary board racks.

BENEFITS BOOSTED.

WE DESIGN EVERYTHING WITH YOU IN MIND. THESE INDUSTRY-LEADING INNOVATIONS AVAILABLE ONLY ON MASTERCRAFT BOATS HELP YOU HAVE THE MOST FUN, SAVE TIME, AMPLIFY PERFORMANCE, AVOID HASSLES AND MAKE SUMMERS EVEN BETTER. CAN YOUR BOAT DO THIS?

FASTFILL SYSTEM

When it comes to wakesurfing and wakeboarding, ballast means everything. More weight means more wave — and used to mean longer fill times — until now. We've changed that in a big way with our FastFill System. Available in X and XT models, FastFill pumps bring in 30 gallons of water a minute which is 300% faster than standard pumps. The time and energy savings add up quickly. Upgrade to the FastFill System for less downtime idling while your tanks fill and more good times rolling out the waves.

COOLFEEL VINYL

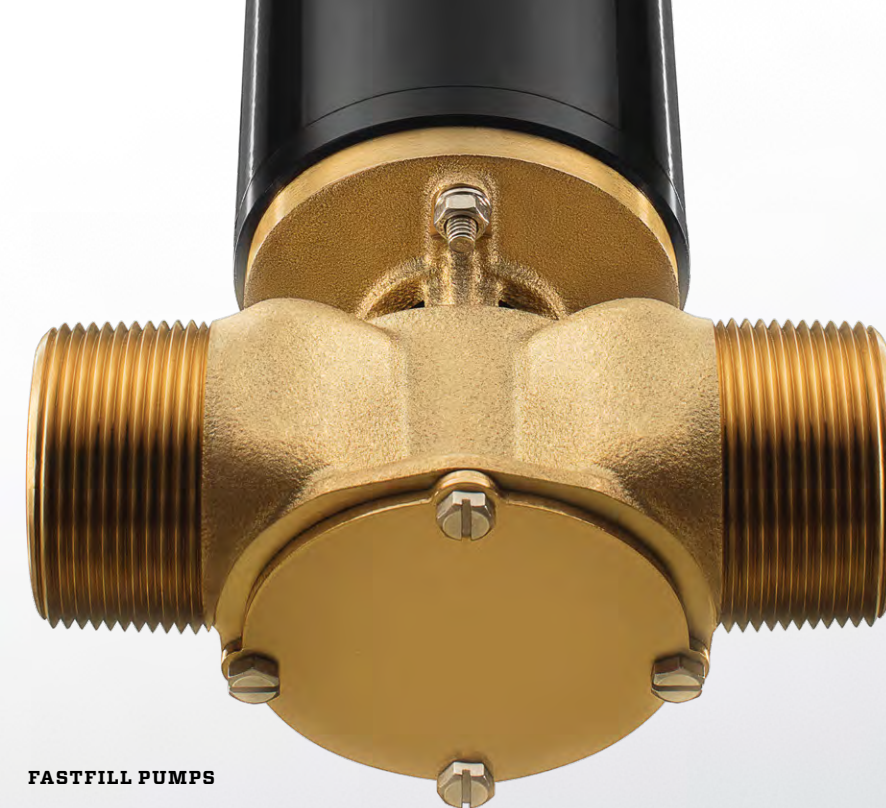

Welcome to the coolest seats around. Our innovative CoolFeel vinyl is proven to remain up to 25% cooler to the touch than traditional vinyl when exposed to direct sunlight, keeping everyone comfortable on long summer days.

SWITCHBACK BALLAST TANK

Our engineering team believed wave-making could be drastically improved. Enter the Switchback Ballast Tank. We start with a U-shaped tank that spans the hull's width. Once the water is loaded and the tank is partially full, the Switchback System intelligently moves it side to side, exactly wherever you need the weight and displacement. This creates a more efficient, more flexible and all-around better wave. What you end up with is more of everything you want for every skill level. Roll out waves that are cleaner, longer and steeper with more push, more control and the most rideable area in the industry. In the end, even though we focused on every other part of the wave, the byproduct of adding that much displacement to the boat was that we still ended up with a wave that's bigger on top of everything else. Quite simply, the towboat industry has never seen a surf wave like this before.

DOCKSTAR HANDLING SYSTEM

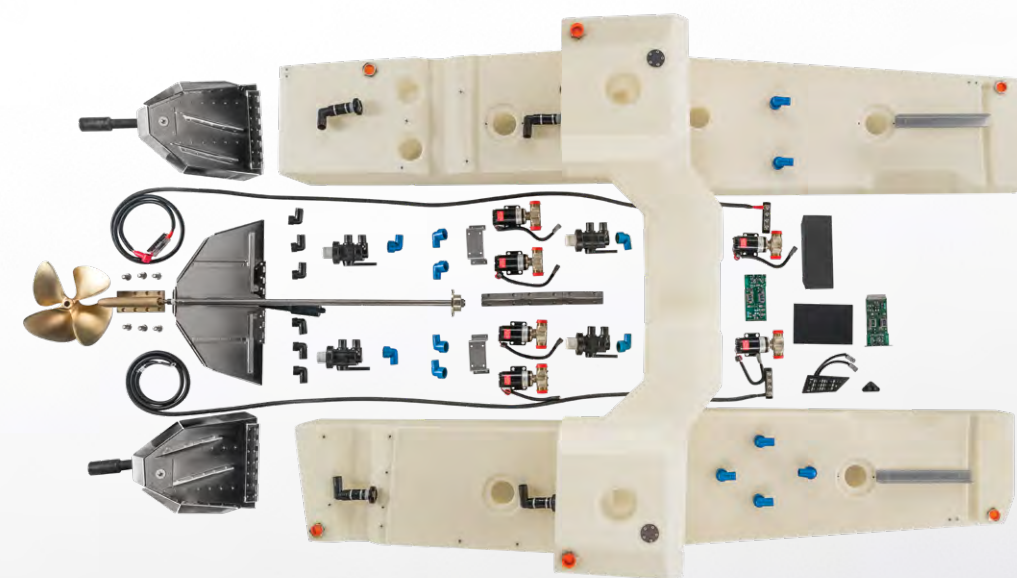

Fine-tuned for connoisseurs of the easy ride, the National Marine Manufacturers Association Award-winning DockStar Handling System delivers revolutionary steering control in reverse and increases the all-around handling for precision driving. Perfect for maneuvering in tight spaces. Available on the XStar, X, XT and NXT models.

DOCKSTAR HANDLING

PART THE WATERS AND PUT THE POWER DOWN.

ILMOR, A PENSKE-OWNED COMPANY, HAS MORE THAN 30 YEARS EXPERIENCE WITH THE HIGHEST PINNACLES OF AUTOMOTIVE RACING. THAT'S WHY THEY'RE MASTERCRAFT'S EXCLUSIVE PARTNER FOR RECREATIONAL MARINE ENGINES. THE MOST RESPONSIVE, ROBUST AND RELIABLE ENGINES MEAN MORE TIME ON THE WATER DOING WHAT YOU LOVE. WELCOME TO WORLD CLASS.

THE WARRANTY NOBODY CAN TOUCH

Ilmor engines have an unprecedented 7-year, 1000-hour, factory-backed warranty — the most comprehensive in the towboat industry. This is the gold standard.

LEVELED UP WITH MORE LITERS

More liters mean more power, and you will feel the difference in our 380 horsepower 6.0L MPI engine, standard on the NXT, XT and ProStar models. X models and the XStar feature a powerful 430 horsepower 6.2L GDI, and can be upgraded to a massive 7.4L MPI making 522 horsepower. The torque and gearing ratios are all designed to give a power curve with tractor-like towing muscle in a boat filled with ballast, but also plenty of glorious top-end speed. And for those seeking salt water, the super tech 5.3L GDI has an efficient close-cooled aluminum block, running 365 horsepower at higher RPMs giving it outstanding top-end performance, while still pulling wicked holeshots.

REAL-WORLD RELIABILITY

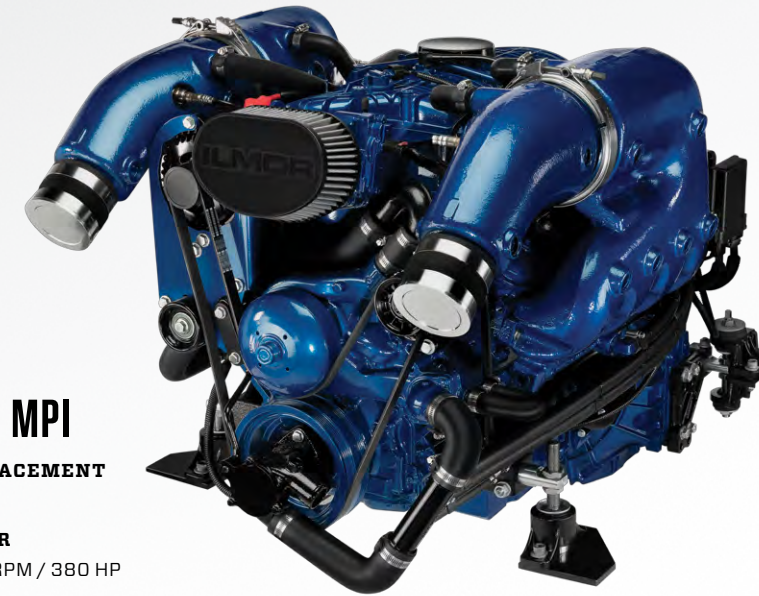

Ilmor knows how to engineer simplicity and reliability. From fewer hoses and clamps, to an engine power distribution module (e-PDM) which eliminates the need for physical fuses and lets you reset, right from the dash. A crank-mounted raw water pump on the 6.0L, 5.3L and 6.2L engines eliminates common failure points, allowing longer time (two seasons/125 hours) between routine impeller servicing.

MEAN AND CLEAN

Ilmor produced the first marine engines in the world to exceed the standards of the EPA, the EU, CARB ultra clean ratings and single/twin BSO certification. Wider band oxygen sensors optimize fuel efficiency. Better for the planet, and better for anyone behind the boat.

DOUBLE VOLTAGE

Ilmor has incorporated new Mechman alternators offering 180A of peak current output (double the previous generation). So plug in and play loud, knowing your boat's electrical system has top-of-the-line power.

PROSTAR

THE ORIGINAL, THE ULTIMATE

The original world-class MasterCraft was designed to thrill skiers with precise control and impeccable wakes. For 2021, we’ve taken everything you’ve come to love and expect from the ProStar and made it even better for the skier, driver and crew. New hull rails and added tracking fins make this the easiest driving ProStar ever. Enjoy the redesigned helm experience with a standard 10.6-inch touchscreen and enjoy a number of thoughtful onboard additions. From first-timers to slalom veterans and world champions alike – the ProStar delivers.

DESIGN YOURS TODAY AT [MASTERCRAFT.COM](https://www.mastercraft.com).

PUT YOUR STAMP ON IT.

MAKE YOUR BOAT UNIQUELY YOURS THROUGH COLOR, MATERIAL, FINISH AND STYLING OPTIONS.

TRUE FOREVER

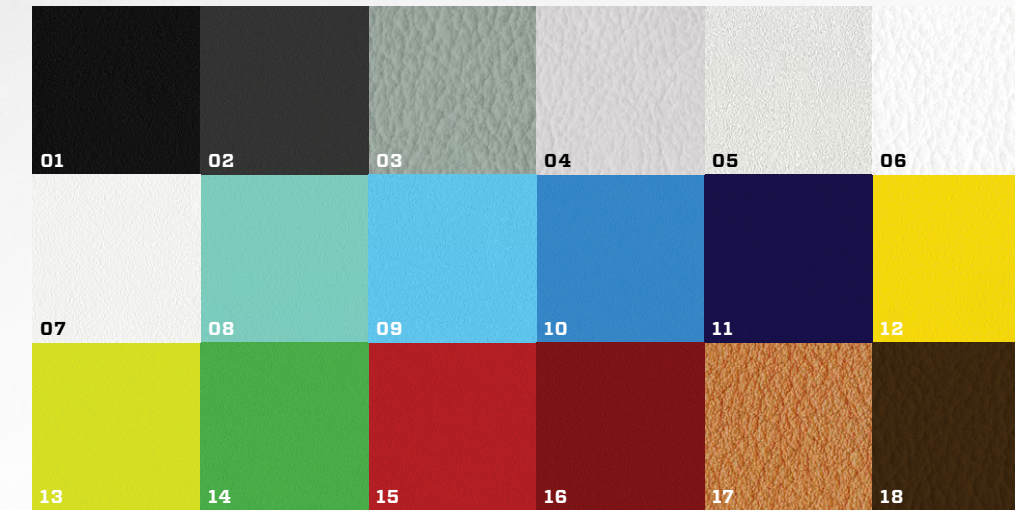

Before production, all gelcoat and raw laminate materials are certified by our in-house laboratory. Premium grade gelcoat is triple sprayed, measured and inspected to achieve .24 mm thickness. The result is a beautiful, durable, lifelong luster from day one.

TAILORED TO YOU

We produce our own custom upholstery using up to nine grades of high-density foam, 140-pound puncture-resistant premium vinyl and heavy-duty stitching. Our seats are superiorly built with rotocast polyethylene frames and backs. Unlike wood or plastic, fiberglass seat bases won't rot or lose their shape in hot weather. Each seat base is part of the deck mold. Our innovative pleating machine allows us to build the whole interior on the premises to ensure the look and quality of true-sewn pleats. To make our interiors last even longer, we use triple density, self-draining foam to keep your seats dry and looking stylish for decades.

VINYL

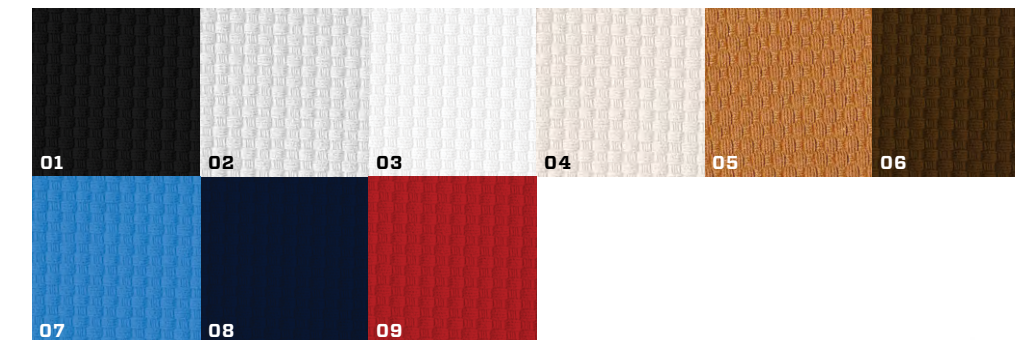

Express your style with vibrant color options and superior puncture resistance.

01 Midnite Black | **02** Slate Grey | **03** Odessa Flint | **04** Odessa Platinum | **05** Platinum
06 Odessa White | **07** White | **08** Calypso Green | **09** Kahuna Blue | **10** Jetstream Blue
